 Pasarela acceso Zona de Sombra para discapacitados T: tabla de información.

PLACES OF INTEREST IN THE BEACHES

Hotel Balneario La Encarnación

This hotel, built in 1904, is located on the shores of Mar Menor and has remained as the silent witness of the expansion of this municipality. The visitor can still appreciate the idiosyncrasies features of the beginnings of the century. The hotel accommodates the famous spa baths with renowned curative properties.

Monumento al Pescador

On the Espejo beach, next to the Asunción's Church, this monumental collection, cast in bronze, pays homage to the efforts made for many years and the main support of the economy of this municipality: fishery and de fishermen. The monument represents a fisherman who, on his hard day's laubor, drags an empty fishnet.

Behind him, there are two seas that embrace Murcian coastline; the Mar Menor and the Mediterranean sea are represented by the mermaids riding on the seashores and are saddened by the fisherman struggling in vain and help him by filling the fishnet with fish.

Monolito Independencia Municipal

It's located in the Paseo de Carrion, marking the exact spot where the municipalities of San Javier and Torre Pacheco meet, to which Los Alcázares belonged before segregating. It was built in 1993 in order to celebrate the X anniversary of the municipal autonomy.

SERVICES
